NORMAL

Hand-cut and set, the surface left as cut

POLISHED

The surface worked flat and brought up to a lustre

ROMAN OLD TECHNIQUE

Cut and laid in the ancient method — irregular tesserae, the surface left as the stone falls

CUSTOM DESIGN

Drawn to your own artwork or brief rather than taken from the catalogue

What the rate carries, and what it does not.

INCLUDED IN THE RATE

- ◇ Design development and the cutting drawing
- ◇ Master sketch and a rendering in your own space
- ◇ Hand-cutting and setting at the bench
- ◇ Mesh backing, numbered panels and a setting-out key
- ◇ Crating and insured worldwide shipping
- ◇ Spare tesserae from the same batch

NOT INCLUDED

- ◇ Installation — the drawings and guide are supplied, the fitting is local
- ◇ Waterproofing, adhesive and grout
- ◇ Site preparation and making good
- ◇ Duties and local taxes where they apply

WHAT MOVES THE RATE

- Tessera scale
Finer cutting is more hours in the same square metre
- Colour count
More stones in a palette means more sorting and more waste
- Metal leaf
24k gold, white gold and copper are priced on the area used
- Area
Larger commissions carry a lower rate per m²

Rates are quoted against an approved drawing and hold for the commission — there is no square-metre creep once the drawing is signed off. A fixed quotation follows the master sketch, at no cost and with no obligation.
