Handcrafted
Natural
Marble & Glass
Mosaics
for *Luxury Interiors*
& *Exteriors*.

THE STUDIO

Where Roman Craft Meets *Modern Design*

For over two thousand years, mosaic has transformed architecture through the meticulous placement of individual pieces of stone and glass. We preserve that traditional craftsmanship while adapting it to the scale, precision, and creative requirements of contemporary spaces.

Every project is made to order. Starting from a concept, artwork, logo, pattern, or architectural drawing, our designers develop a custom mosaic tailored to the project's exact dimensions, shape, colors, materials, and application.

Our artisans then bring the design to life one tessera at a time, using natural marble and glass to create pieces for interiors, exteriors, floors, walls, pools, hospitality spaces, commercial environments, and large-scale architectural installations.

From a single statement piece to a multi-surface project, we collaborate with architects, interior designers, developers, contractors, and hospitality professionals from concept and rendering through production and delivery.

Ancient technique. Contemporary design. Made entirely for your project.

THE DETAIL

*Thousands of tesserae,
placed by hand.*

Directly from our workshop.

Nothing here is staged. Every commission is photographed on the bench as it is cut and set, and those photographs go to the client as the work grows.

WORK IN PROGRESS AT THE BENCH MARBLE, ONYX AND HAND-POURED GLASS ON FIBREGLASS MESH

STONE

Blocks selected for vein direction. The edge you see is cut, not moulded.

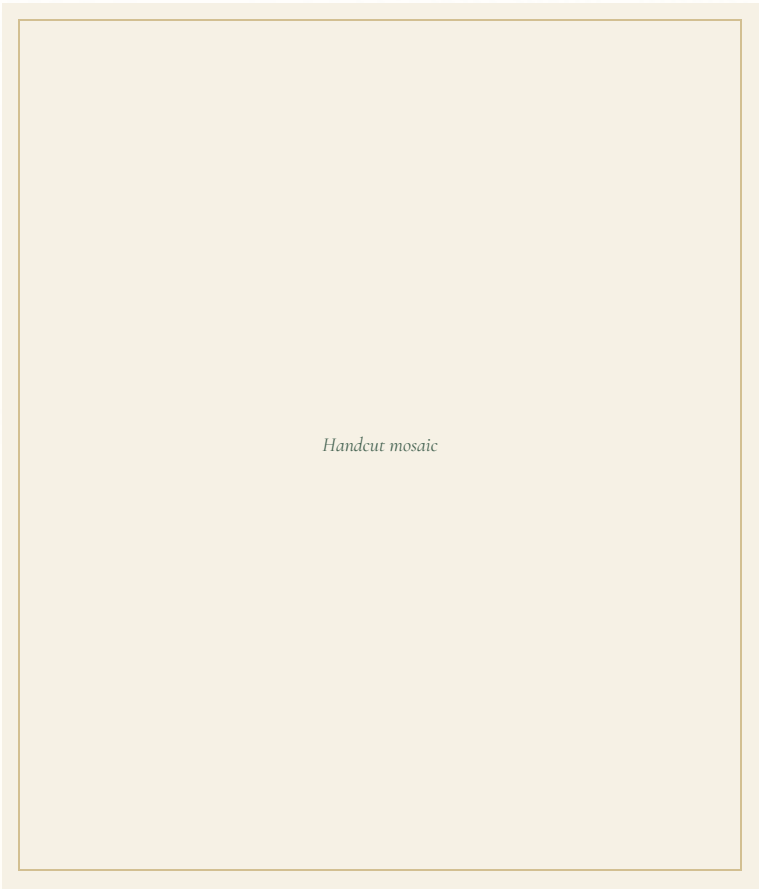

GLASS

Colour runs through the full body. Metal leaf sits between layers, so it keeps its lustre wet.

SETTING

The *andamento* is drawn before assembly. It is what makes a mosaic move with the light.

Three ways to hold a design in stone.

Handcut mosaic

HANDCUT MOSAIC

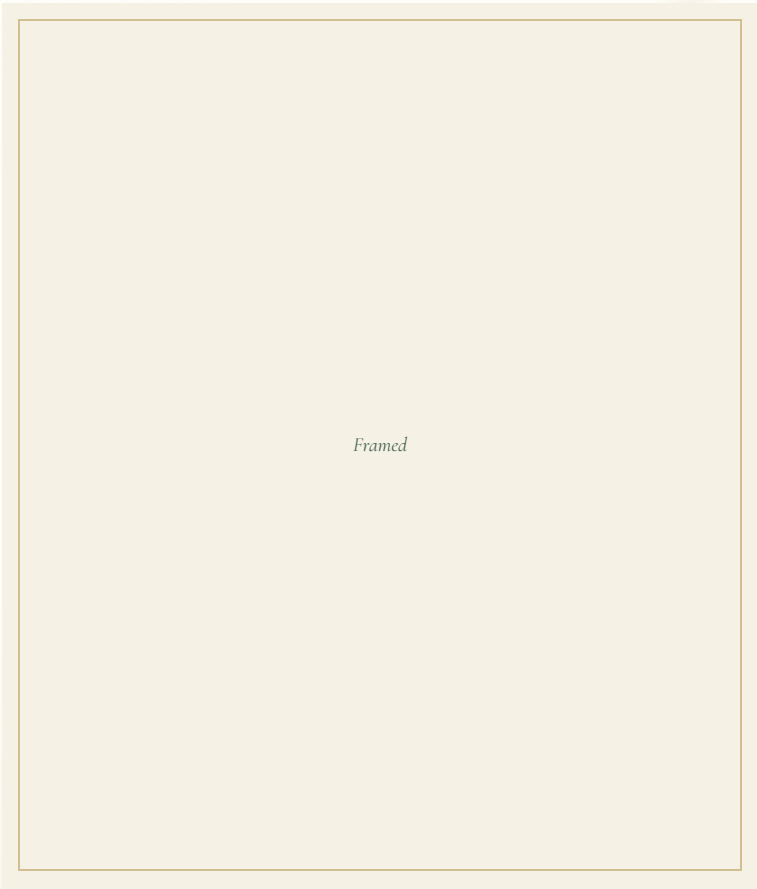

Cut and set by hand from 3 mm stone and 4 mm glass, delivered mesh-backed and numbered.

Roman technique, polished

ROMAN TECHNIQUE, POLISHED

Irregular natural tesserae laid in the ancient Roman method, then hand-polished to a flat, deep-lustre surface.

Framed

FRAMED

A frame made for the piece it surrounds. Turns a mosaic into a hung artwork rather than a fixed surface.

CUSTOMISATION

If you can imagine it,
we can *hand-cut it in stone*.

Nothing comes from a catalogue — and you see a free master sketch and rendering of the piece in your own room before a single tessera is cut.

01

SIZE

Cut to your drawing, not to a standard sheet. Irregular outlines and curved edges included.

02

COLOUR

Forty-two marbles, six engineered stones, the full glass range — or matched to a fabric or paint reference.

03

DESIGN

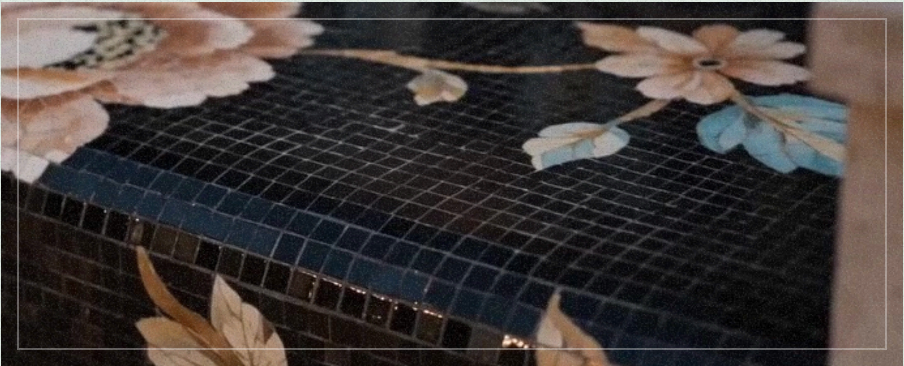

Your artwork, a photograph, a monogram, a historical pattern — or an original drawn to your brief.

What you specify, and what we decide together.

VARIABLE	RANGE	DECIDED BY
Size & shape	Any dimension, any outline — medallions, full walls, stair risers, pool floors, table tops, framed panels	Client drawing
Composition	Figurative, portrait, botanical, geometric, nautical, historical — or an original to your brief	Studio, to brief
Palette	42 natural marbles · 6 engineered stones · full glass and metal-leaf range	Together
Tessera scale	Fine work for detail, broader cuts for distance — set against viewing range	Studio
Surface finish	Polished, honed, tumbled, Roman polished	Together
Edge & frame	Mesh-backed square edge, bevelled border, or a made frame	Together
Rendering	A free visual of the finished mosaic in your own space, before cutting	Studio — at no cost

Made to be looked at through water.

- ◇ Frost, salt and chemical resistant
- ◇ Full-bodied glass — colour never fades
- ◇ 24k gold and silver leaf keeps its lustre wet
- ◇ Floors, walls, waterlines, steps and coping

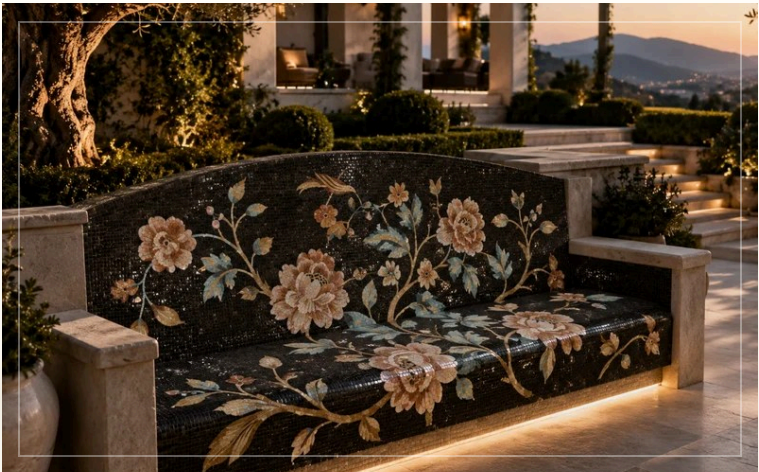

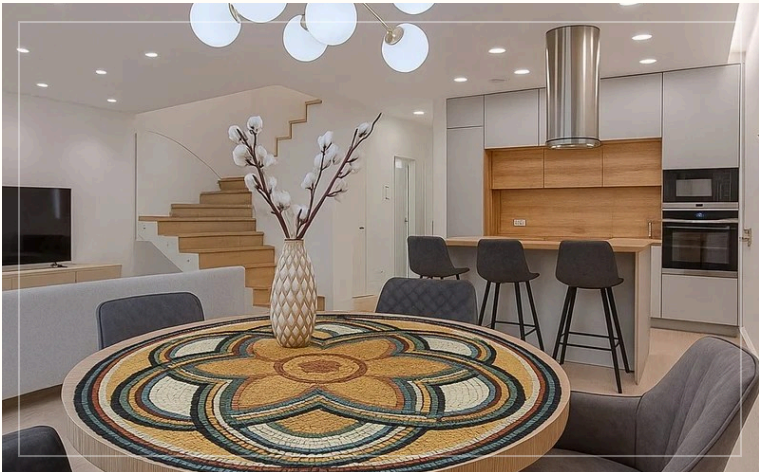

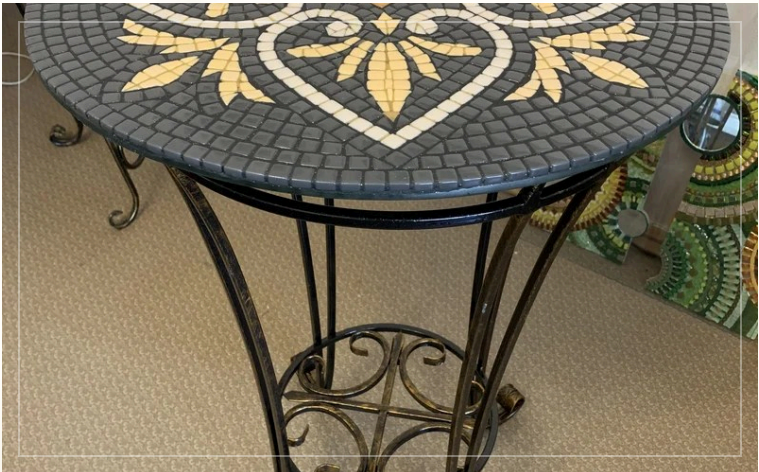

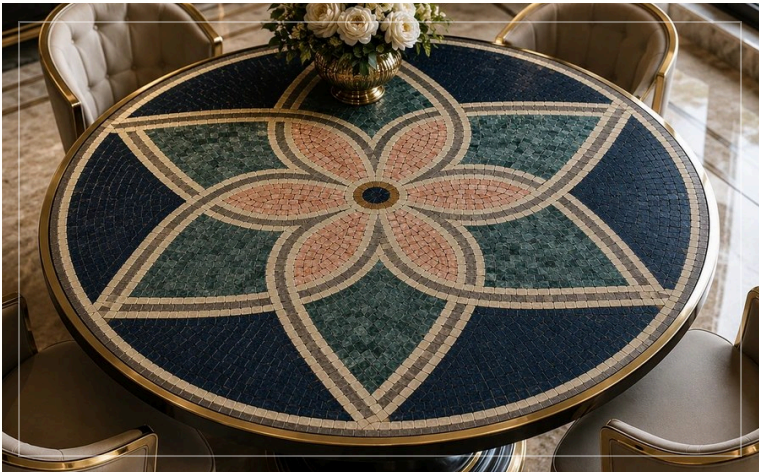

Spa & water feature

Medallion, lit at night

FURNITURE

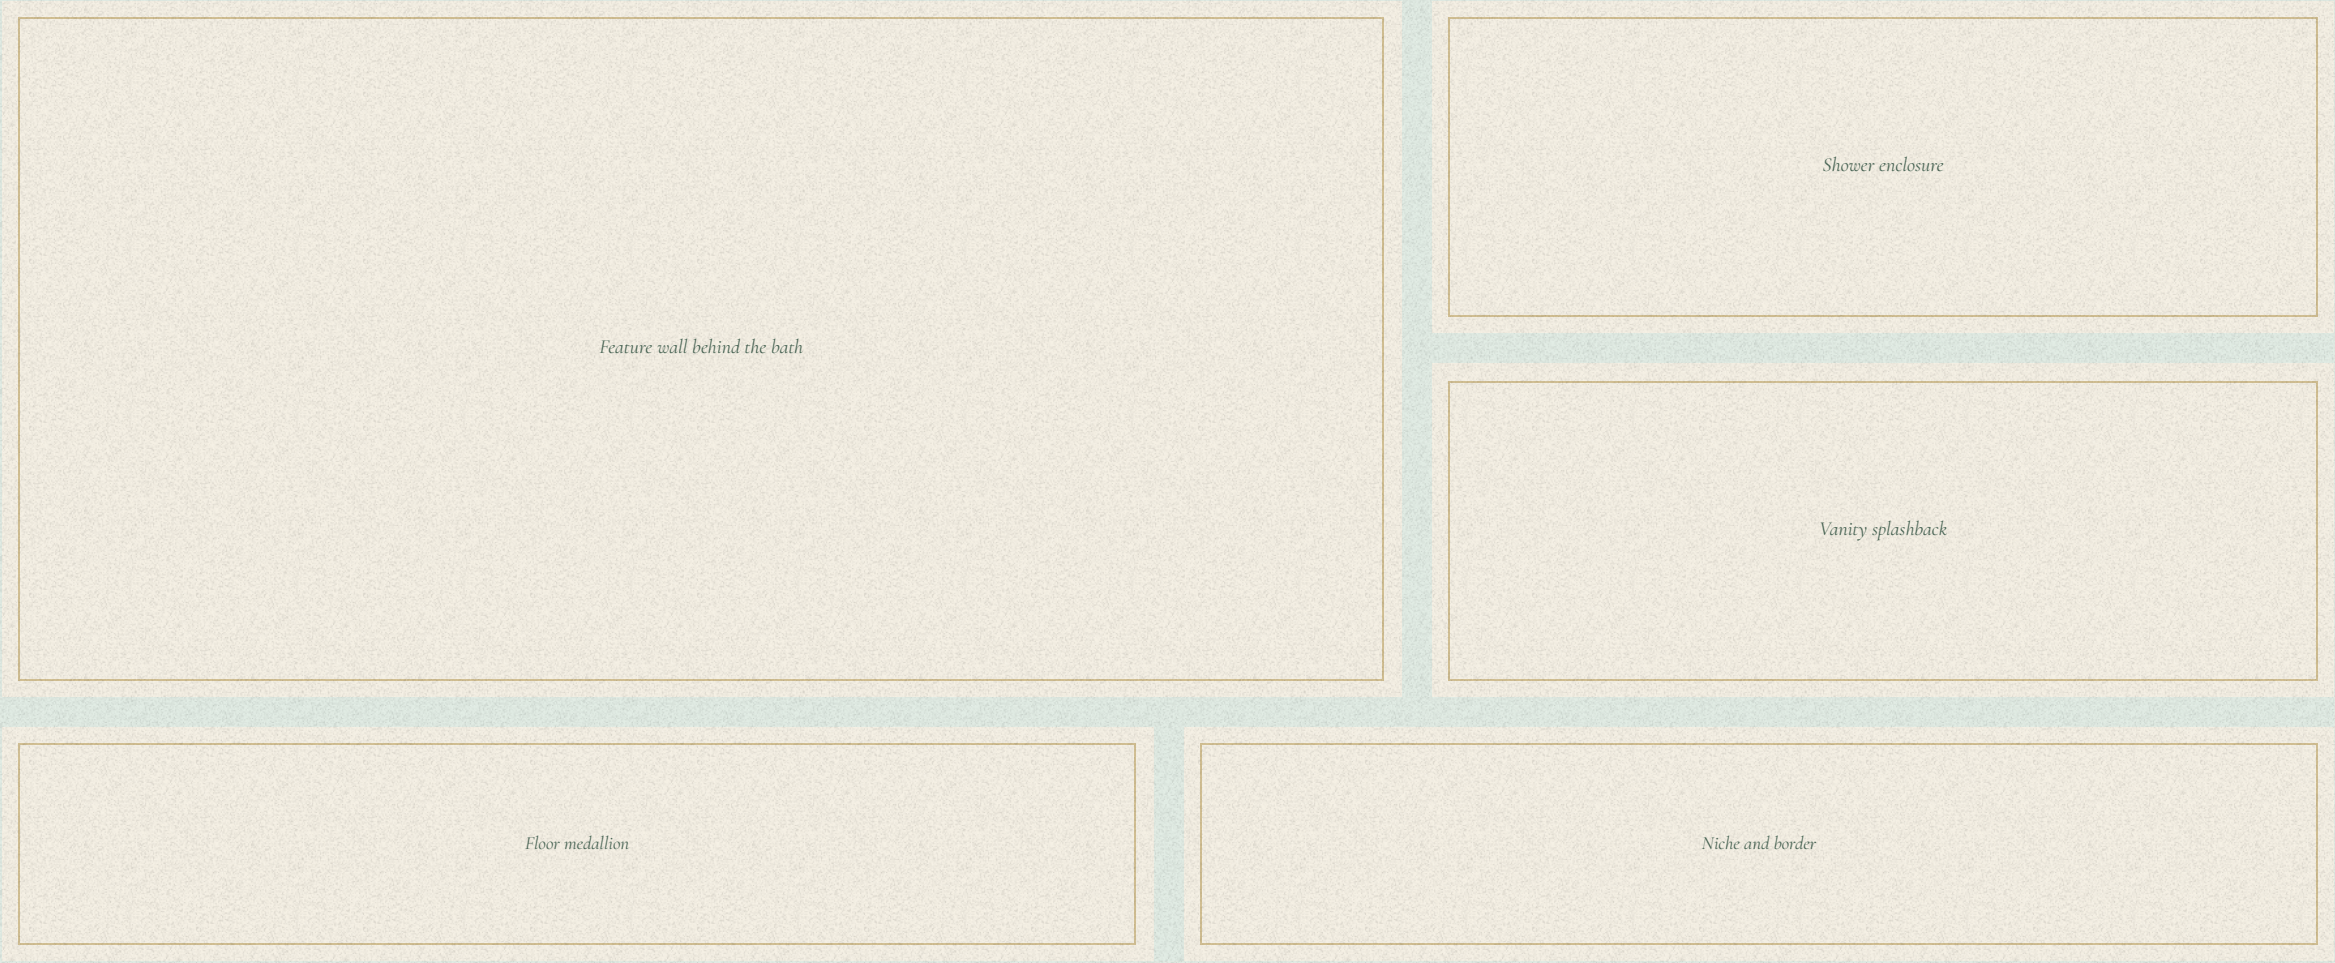

A mosaic you can sit at, and sit on.

- Any diameter — round, oval or square, to your drawing
- Supplied as a top, or on a base we fabricate
- Benches curved or straight, free-standing or built in
- Frost-resistant and weatherproof for terrace and garden

The one room looked at
from two feet away.

- ◇ Water absorption $\leq 0.5\%$ to ASTM C373
- ◇ Epoxy adhesive and grout throughout
- ◇ Wet-area slip resistance DCOF ≥ 0.42
- ◇ Mesh-backed panels cut around niches, benches and drains

KITCHENS & SPLASHBACKS

The wall a family stands
in front of every day.

- ◇ Grout joint ~1 mm — a nearly continuous surface
- ◇ Epoxy grout: no staining from oil, wine or citrus
- ◇ Cut around sockets, rails and extractor returns
- ◇ Scaled to the run so the pattern completes at both ends

Product data.

FIGURES ROUNDED TO THE NEAREST WHOLE UNIT. EVERY MOSAIC IS WEATHERPROOF AND SUITABLE FOR INDOOR AND OUTDOOR INSTALLATION.

ITEM	SPECIFICATION
Natural stone	Marble, onyx, travertine and granite, selected for vein before cutting. Thickness 5 mm .
Hand-poured glass	Full-body colour, no cut edges to <u>oxidise</u> °. Thickness 4 mm . Metal-leaf glass with 24k gold, white gold or copper sealed between layers.
Engineered quartz	Natural quartz aggregate bound with resin. Mohs 7, water absorption approximately 0.02%. Thickness 8 mm .
Backing	Fibreglass netted mesh on every sheet and panel, so the trade fixes the tile and not the tessera.

ITEM	SPECIFICATION
Sheet size	300 × 300 mm nominal, joint ~1 mm. Panels numbered to a setting-out key.
Weight	Glass ≈ 10 kg/m². Stone 13–15 kg/m², by thickness.
Max single panel	<u>To confirm</u> ° — larger artworks split on the drawing and numbered.
Tolerance	Sheet within 1 mm; outline within <u>to confirm</u> °.
Applications	Walls and floors, interior and exterior, wet areas and fully submerged. Decorative and functional alike.

Material performance.

TESTED VALUES AGAINST RECOGNISED STANDARDS. BATCH CERTIFICATES ISSUED WITH THE ORDER.

NATURAL MARBLE

TEST	STANDARD	RESULT
Water absorption	ASTM C373	≤ 0.5%
Flexural strength	ASTM C880 / C1161	≥ 10 MPa
Compressive strength	ASTM C170	≥ 50 MPa
Thermal expansion	ASTM C531	Stable
Frost resistance	ASTM C650	Pass
Slip resistance	DIN 51130	R9–R11, by finish

HAND-POURED GLASS

TEST	STANDARD	RESULT
Water absorption	UNI EN ISO 10545-3	≈ 0%
Thermal shock	UNI EN ISO 10545-9	Resistant
Frost resistance	UNI EN ISO 10545-12	Resistant
Chemical resistance	UNI EN ISO 10545-13	Class A
Colour resistance	DIN 51094	No change
Bond strength	ASTM C482	≥ 350 kPa

Installation, site & care.

ANY COMPETENT TILING CONTRACTOR CAN FIX MESH-BACKED PANELS. THESE ARE THE CONDITIONS THE WORK NEEDS.

ITEM	REQUIREMENT
Substrate	Flat, sound, dry and free of contaminants before any mosaic is fixed.
Waterproofing	Required in showers, bathrooms, fountains and pools — a compliant tanking system applied and tested first.
Adhesive	Epoxy required for wet, outdoor and submerged work. White or light adhesive under translucent glass and pale stone.
Grouting	Unsanded epoxy on glass, mandatory in wet areas and pools. Grout colour changes how the whole piece reads — sampled first.
Movement joints	Mandatory at perimeters, internal corners and every change of plane; silicone, never rigid grout.

ITEM	REQUIREMENT
Slip resistance	DCOF ≥ 0.42 interior wet, ≥ 0.60 exterior. Honed and tumbled finishes hold more grip than polished.
Sealing	Required on marble. Penetrating sealer before grouting, and on the cycle the site specifies.
Cleaning	pH-neutral cleaner and a soft cloth. Never acidic, abrasive or bleach-based on natural stone.
Pool commissioning	Cure the adhesive and grout fully before filling; then balance the water before the surface is used.
Delivery	Crated by panel sequence with the setting-out key, material schedule and spare tesserae from the same batch.

Seven stages, one team, no hand-offs.

Built for the way studios actually work.

SUPPORT

- ◇ Named contact for the whole commission — design through installation
- ◇ Free master sketch and rendering of the mosaic in your space, for your client presentation
- ◇ Complimentary design consultation with our in-house interior designers
- ◇ Physical sample boards and material layouts for client meetings
- ◇ Specification, technical data and maintenance sheets for your file
- ◇ Site measurement and installation supervision

PROGRAMME

Design & approval	<u>To confirm °</u>
Production	<u>To confirm °</u>
Delivery	Worldwide, free and insured
Minimum order	<u>To confirm °</u>

Lifetime warranty

On materials and workmanship. Replacement tesserae from the original batch stay available against the commission record for years.

COMMERCIAL

- ◇ Trade pricing for architects, interior designers and contractors
- ◇ Fixed quotation against an approved drawing — no square-metre creep
- ◇ Staged payment aligned to design, production and delivery
- ◇ Spare tesserae from the same batch supplied with every commission
- ◇ Free insured worldwide shipping, direct from the studio
- ◇ Satisfaction promise on the finished work

BEGINNING A COMMISSION

Send us a drawing
and a reference.
We will do the rest.

WHAT HELPS US QUOTE QUICKLY

- ◇ Finished dimensions, or a plan with a scale
- ◇ The surface it will sit on, and whether it is wet, submerged or exterior
- ◇ Reference images — anything from a photograph to a colour swatch
- ◇ The site programme, and when the mosaic is needed
